If you're reading or writing Regencies, this book is great!By Aisling D.If you're reading or writing Regency novels, or if you're watching a lot of Jane Austen books made into movies, this book will help you understand some unfamiliar words.In addition, browsing this book will explain more about the morals and humor of that era. Most of this is very different from Jane Austen's world.However, learning more about Regency culture -- including the vulgar side of it -- will help readers better understand why girls who didn't know or even scoffed at the constraints of polite society... well, they were at risk of being thought vulgar (and loose).This is a useful book for any fan of the Regency era.0 of 1 people found the following review helpful. Worth having aroundBy AbeI bought this book after a blog recommended it as one of the dictionaries every bookshelf should have. I ended up buyin a second copy as a present to my brother and he loved it as well.0 of 1 people found the following review
