Bargain price for an irreplaceable resourceBy Camille P.These catalogues, heavy as they are, deliver so much more than valuations for stamp collectors; they are an encyclopedia of world history in painstakingly precise and detailed order. I'm delighted to benefit from the 'recycling' effort of the public libraries now offering them for sale at a bargain price.0 of 0 people found the following review helpful. catalogue arrived promptly and in excellent shape. Extremely pleased. Would recomend for anyone with uncatalogued older foriegn stamps to ID those with unusual value, but don't need the latest value.

There are value changes in almost every country in Volume 4. The countries with the most value changes are Malaya and Malaysia, with more than 3,200. In addition to thousands of value changes, more than 1,000 new values have been added in Laos for used stamps between Scott 317 and 1381. Other countries with large numbers of changes are Libya, Morocco, Martinique, Montenegro and Macedonia.
