Good book for basic communicationBy CustomerThis book is perfect for trying to communicate with parents in the front office when no bilingual support is available. A pronunciation guide would have given it five stars.

This book provides educators with Spanish sentences and vocabulary for all phases of the school environment including the school office, classroom, playground, cafeteria, and nurse's office. This book is useful for registration of students, classroom instruction (including SSL), communicating with parents, nurse's office procedures, etc. In its 13th printing, it is widely used for teacher training classes.
