I wanted to give her something that made keeping track of what she has read easy and this journal is structured well in that regard. She seems to like it and now, instead of putting post-it notes on the front of the books with the information, she is able to keep the details all in once place.0 of 0 people found the following review helpful. Disappointed - quite smallBy A. StarkeyI am somewhat disappointed

with this diary. it is rather disjointed, and sections of items such as "books I've loaned out," are just kinda helter-skelter. There is not enough pages to really keep track of books for a avid reader, and is quite small. 3 of 3 people found the following review helpful. Good but not amazing

When I got this book in the mail, I was really excited because I want it to serve as place for me to keep track of the books I've been reading lately. The pictures, words, and quotes are beautiful. I love the size of the book. Some of the sections are a bit redundant though. Also I have no need to list books I want to read by subject, so I feel that that particular section is irrelevant. I was also hoping there would be more room for me to write a review about the book. Two lines is not sufficient enough, in my opinion. I also feel that only four pages isn't enough to write down favorite quotes from the books I've read. Overall the book serves its purpose of keeping tracks of the books I've read, I just wish they would've gotten rid of the redundant sections and replaced them with more ro for reviews of each book and quotes.

A Book Lover's Diary is a journal for noting personal discoveries from the books read and recording the books on a wish list. A Book Lover's Diary is a welcome companion during forays to libraries and bookstores when the titles of books wanted can vanish from memory. Well-organized and practical, this book features separate sections for: Books to read Books read and a personal review Books to buy Books loaned out or borrowed Favorite books Memorable passages Addresses of libraries and book stores Beautifully detailed woodcuts illustrate the pages and quotations describe the joy of books and reading. By keeping track of the books read and noting their effect, this journal becomes a valuable personal history.
