Walter William Skeat : A Concise Etymological Dictionary of the English Language (Classic Reprint) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Concise Etymological Dictionary of the English Language (Classic Reprint):

depending on edition and reprint methodology; this is about a tenth of that! 2 of 2 people found the following review helpful. Not worth the price at all By Dalyn J. Weller I expected this to be more. I was disappointed. It's a paperback that looks like photo copied pages of an old book with tiny font 0 of 0 people found the following review helpful. This book as a product is not good. Defects are more than occasional By Walter Zelaya This book as a product is not good. Defects are more than occasional. The defects do not come from the original book, but from the production. It has little use as a reference book. It cost me fifty dollars in total to get it (cost + shipping to my country). Even when the pages are good, they are not easy to read. Recommendation: Remove this book from the list.
