A Great Reference Guide for Job SeekersBy A CustomerThis has just got to be one of the best cover letter reference guides I have come across. This book features 600 cover letters, all classified under different sections like 'Response to Classified Advertisement', 'Response to Blind Advertisement', 'Letter to Employment Agency' just to name a few. The best thing about this book is that under the different sections, letters are then classified under different kind of jobs (i.e Analyst, Business Consultant, Hotel Manager etc etc), making this a really comprehensive guide that gives you samples of things to write to your prospective employers in the different industries. Not only that, the book also provides ideas on how to personalize your letters, what kind of style should you write in as well as the really useful 'Twenty Cover Letter Blunders to Avoid'. I myself styled my cover letters using a few of the samples across industries, by selecting the phrases that best suit my needs to create my own personalized cover letter; and the frequency of my letters getting a reply has indeed increased. Special thanks to Adams Media for publishing this book, because I have since found a job using it!

The most detailed cover letter resource in print, including networking, "cold", broadcast, follow-up, fatal cover letter mistakes, and hundreds of top notch letter samples. In addition to an easy-to-use index, the book includes strategies for people changing careers, relocating, and recovering from layoff.

How can effective cover letters be composed and personalized to suit individual applications for jobs?
